

VIBE

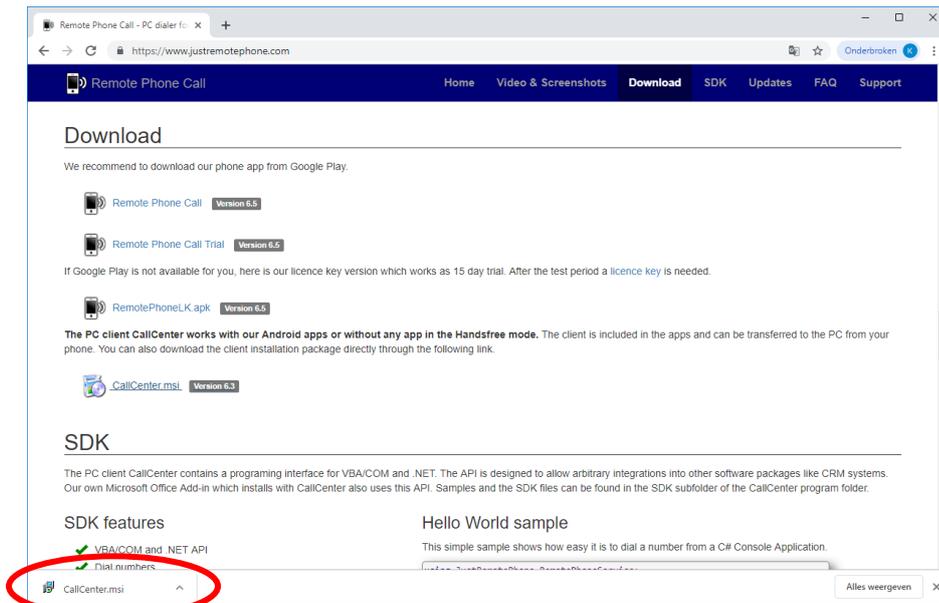

1. Open your internet browser en go to the following website: [www.justremotephone.com](https://www.justremotephone.com)

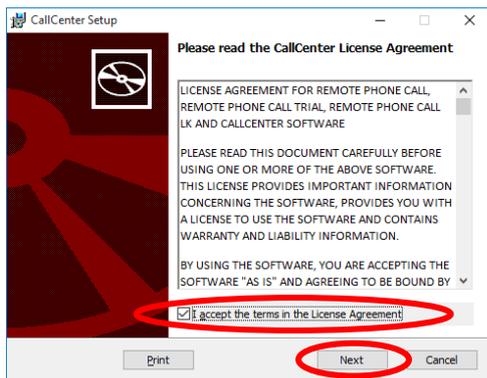

2. Select Download and then 'CallCenter.msi' to download the file

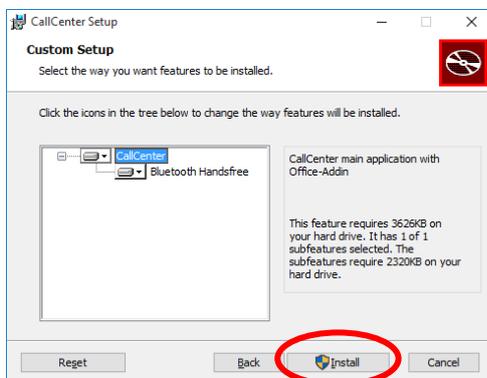

### 3. Select CallCenter.msi to start the setup

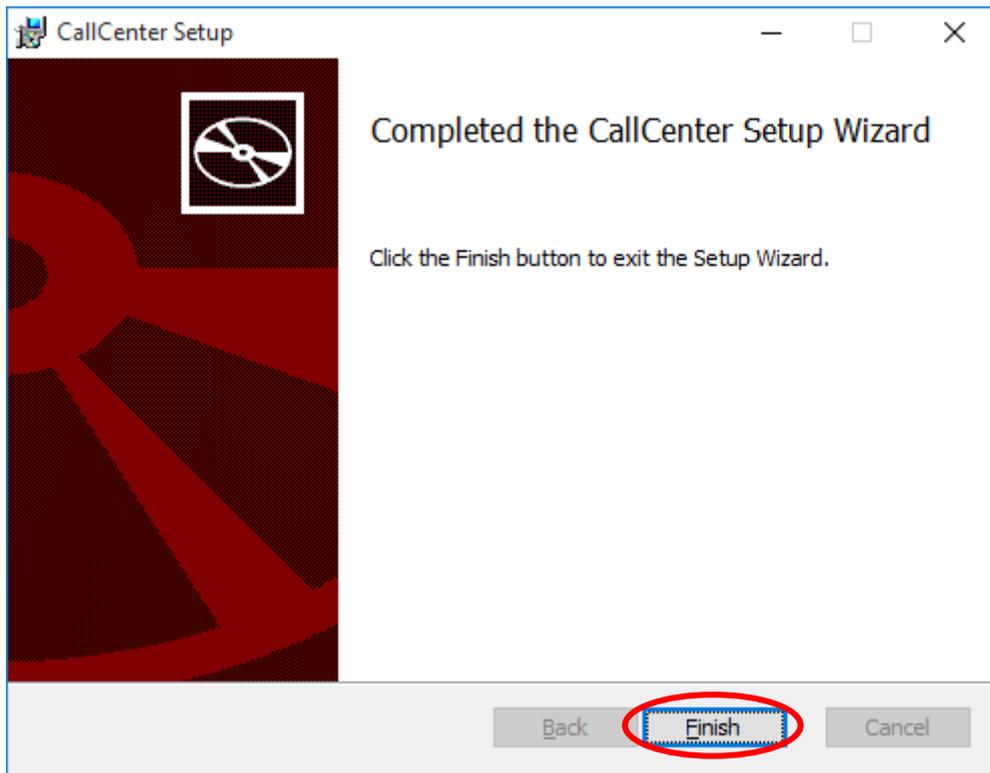

### 4. Tick 'I accept the terms in the License Agreement' and select Next

### 5. Select Install to perform the installation

6. Select Finish to end the setup

7. The following icon should now be on the desktop of your computer

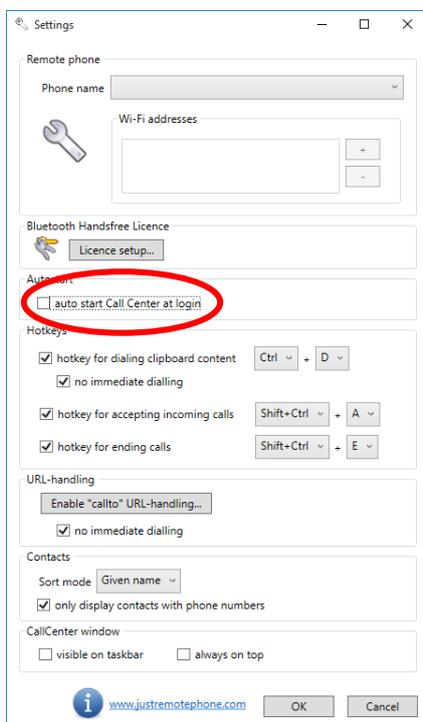

8. Restart the Vibe

## VIBE/CALLCENTER

9. Open CallCenter and click Settings if the window does not appear automatically

10. Deselect 'auto start Call Center at login'

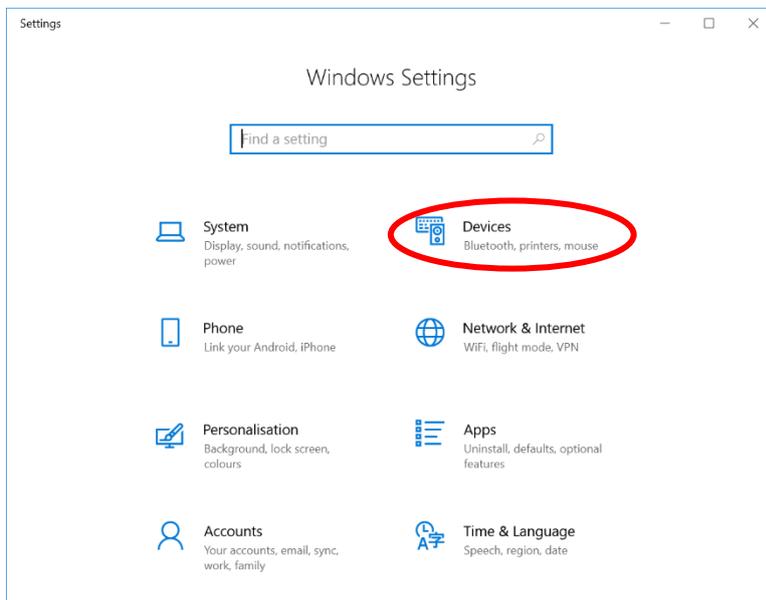

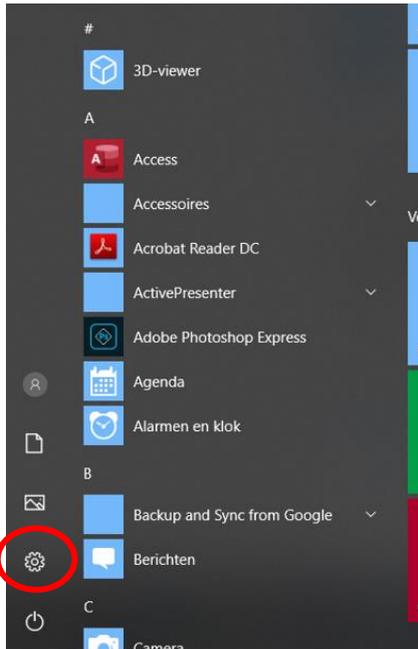

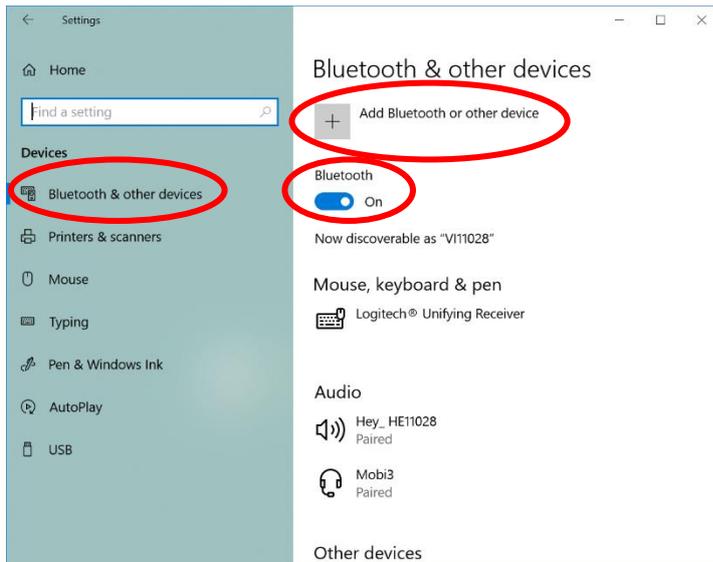

## SMARTPHONE

11. Turn on the smartphone and activate Bluetooth via the smartphone settings

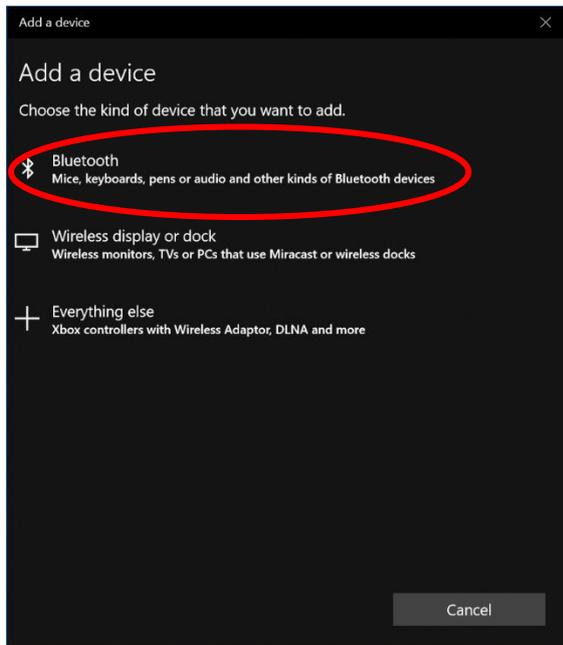

## VIBE/WINDOWS

12. Activate Bluetooth via Start > Instellingen > Apparaten > Bluetooth and other devices and then select 'Add Bluetooth or other device'

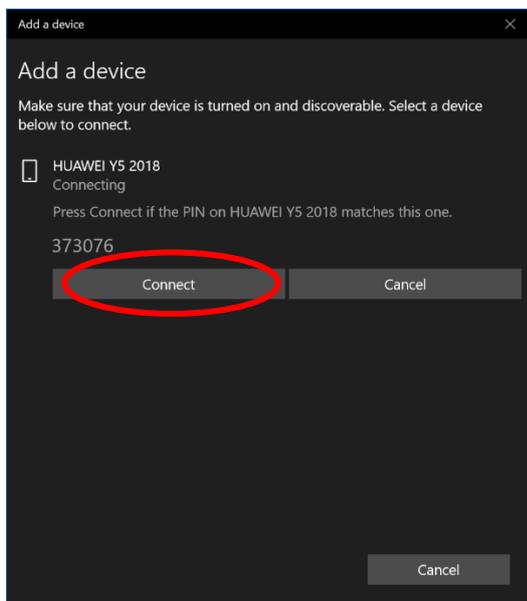

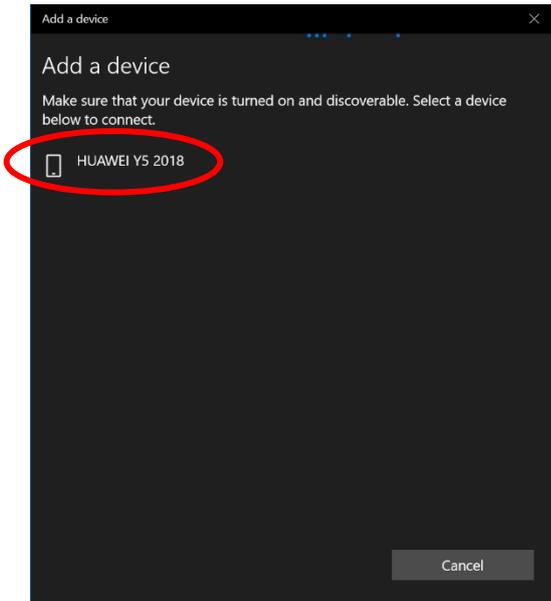

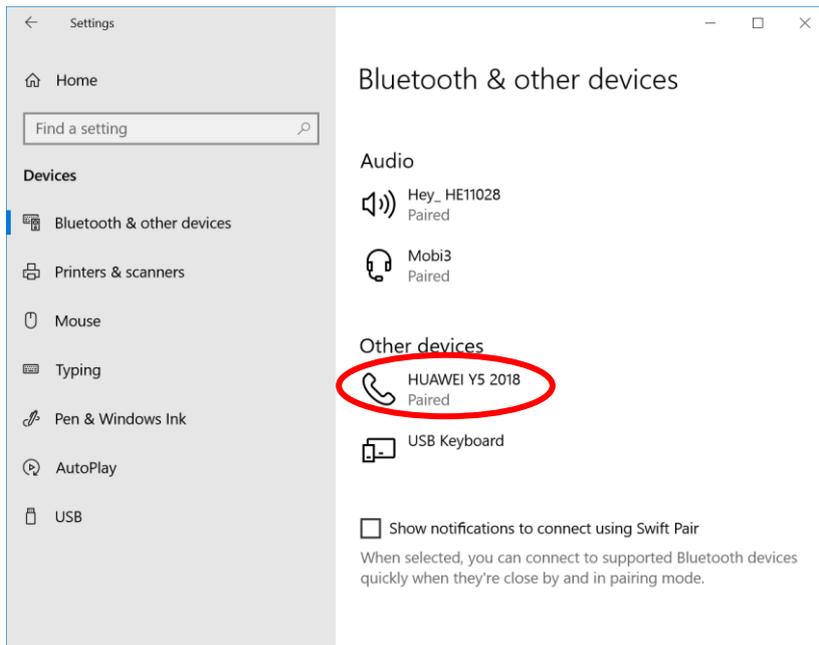

### 13. Choose Bluetooth

14. Select the smartphone from the list. Make sure the code in the window matches the code on your smartphone and click 'Connect'.

15. Once the connection has been established, you will find the smartphone in the Windows Settings window.

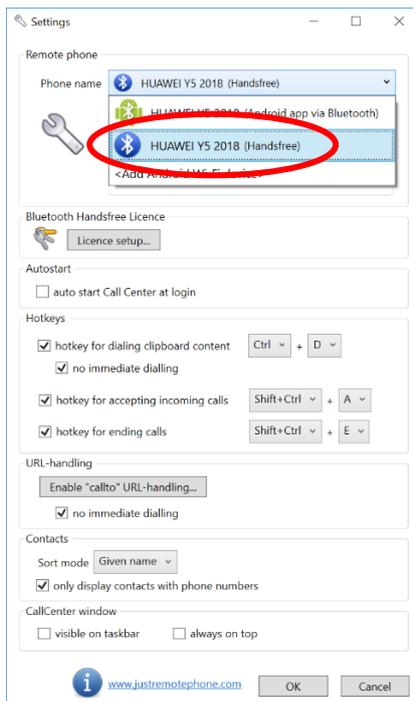

## SMARTPHONE

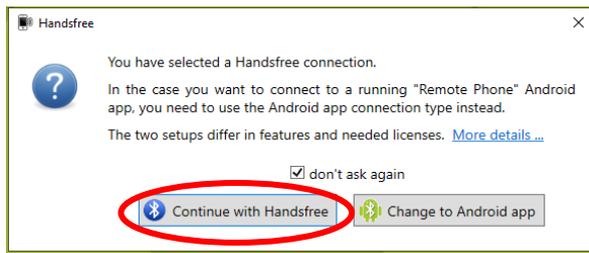

16. Give access to your phonebook and messages when prompted on your smartphone.

## VIBE/CALLCENTER

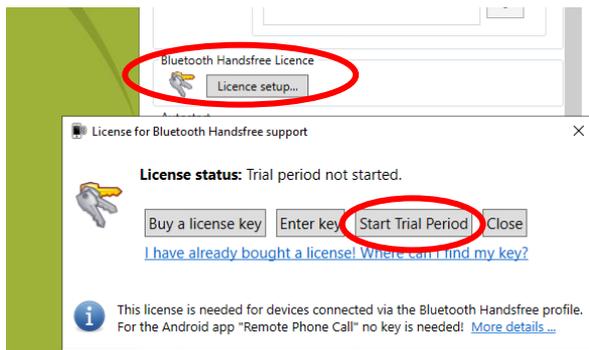

17. Select your smartphone from the drop-down list (Handsfree).

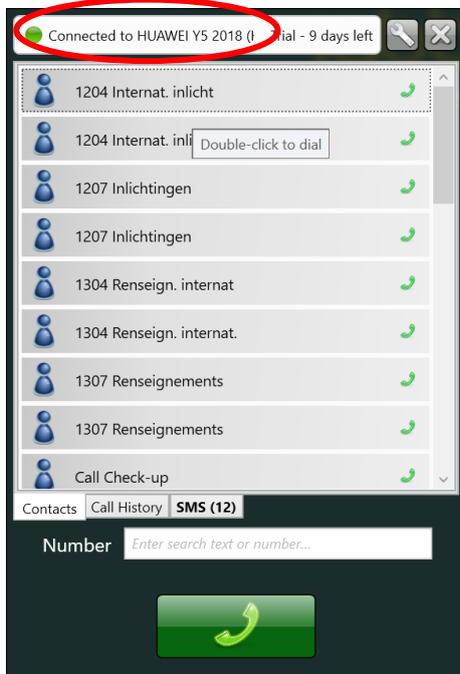

18. Click 'Continue with Handsfree' on the following pop-up window

19. Click 'License Setup' in the menu and choose 'Start Trial Period' in the pop-up window

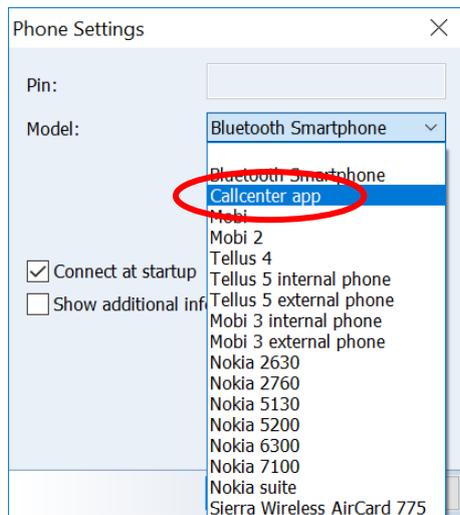

20. Make sure that you can find the smartphone (Handsfree) in the CallCenter drop-down list

21. Callcenter will ask for access to your contacts. You may allow this.

## VIBE/MIND EXPRESS 4

22. Mind Express menu: Tools > Phone > Settings > Model: select Callcenter app in the drop-down list

23. Mind Express menu: Tools > Phone > (re)connect

24. The smartphone will ask for access to the phone book and text messages. You may allow this

25. You can now make phone calls via Mind Express 4 on the Vibe.

A Callcenter pop-up will appear while calling. If you then click on a cell in Mind Express, the Callcenter pop-up will disappear and move to the background.

If the pop-up bothers you, you can make the window size smaller by dragging e.g. the top edge to the bottom of your screen (see pictures below). This will reduce the Callcenter pop-up window to a small black bar in the bottom right corner.
